

## **Welcome!**

We are committed to keeping everyone in our community safe and healthy while COVID-19 is here. We're glad we can come together again safely. We have some new guidelines to protect the health and well-being of all.

### **Here's what we do:**

- Check your temperature when you come in.
- Ask if you have a cough, shortness of breath, sore throat, runny nose, or new loss of taste or smell. If you have any of these symptoms, we will ask you to reschedule and join a later session.
- Collect your contact information at each session.
- Clean meeting rooms and supplies before and after each session. Cleaning supplies will be available if needed during the session.
- Have our staff wear masks when they are within 6 feet of others.
- Set up meeting rooms to make sure there's a safe distance of at least 6 feet between everyone in the room.

### **Here's what we ask you to do:**

- Register in advance. No drop-ins are allowed during this time.
- Wear a mask. We will give you one if you don't have one. During sessions, you can take off your mask if you can stay 6 feet from others. Please wear a mask when you enter and leave the building and if you go to the bathroom.
- Wash your hands often. We also have hand sanitizer available.
